

**Level:** Easy

Enhance your scary Snazaroo Halloween face with these easy to make Devil Horns.

**What you need:**

EDUcraft A4 Foam Sheets

Made For You 15gm Glitter – RED & SILVER

Made For You Printed 10W Glue Gun

Jasart Paint Brush

Elmer's School Glue

Scissors (use under supervision)

Pencil

Headband (purchased from a local discount store)

**What you do:**

1. Lay the headband down onto the red A4 Foam Sheet.
2. Using this as a guide, draw two curved devil horns to fit the curve of the headband. Carefully cut both of these out.  
*TIP: To make the horns symmetrical, draw and cut out one, reverse it and use as a template to trace around and create the other.*
3. Paint the entire headband with Elmer's School Glue using a paint brush.
4. Use the sprinkle feature from the glitter shaker and sprinkle onto the band (whatever your colour preference).
5. Paint the horns with Elmer's School Glue using a paint brush. Ensure the horns are completely covered in glue. Use the sprinkle feature from the red glitter shaker and sprinkle the devil horns entirely.
6. When horns are completely dry, glue horns onto the back of the headband using the glue gun.
7. Allow the entire headband to dry overnight.
