

**Level:** Easy

Personalise your canvas sneakers using Posca Markers!

**What you need:**

Posca Markers

Faber Castell Pitt Pen (black)

Pencil

Canvas Sneakers

**What you do:**

1. Decide on the design for your sneakers. You can take inspiration from your favourite artist or imagination. You may want to sketch your design ideas down first on paper.
2. Based on your design, use a selection of Posca markers in different colours and nib sizes. You can either transfer a line drawing of your design onto the sneakers using a pencil or draw directly onto the sneakers freehand.
3. You may want to have a matching design for both sneakers, a design that flows between the two sneakers or completely different ones.

IDEA:. After colouring-in your design, take a fine nib Posca pen to doodle a design on top. Just let your creative juices flow!
